EDUCATIONAL CRAFT

Step 1

What you'll need:

- 1 sheet of white construction paper or colored
- 1 sheet of white construction paper
- Gallon-size sandwich bag or plastic zip folder
- Scissors
- Black permanent marker
- Colored markers
- A subject area: Pipelines

AND INFRASTRUCTURE**

Step 2

- Place white sheet of paper inside of sandwich bag for better visibility
- You will need your permanent marker to begin drawing your design
- Make sure you have an idea in mind of what you want to draw

What's Below?

EDUCATIONAL CRAFT

Step 3

- Carefully begin your design
- Be sure to draw at least 2 inches below the seal of the sandwich bag
- Allow your creation to have as much in it, without being too messy!

Step 4

- Color in your design using the colored markers
- Don't forget to stay in the lines!
- Use a variety of colors to make your illustration pop

AND INFRASTRUCTURE**

Step 5

- Clear your workspace
- Remove the white sheet of paper from sandwich bag
- You will need your scissors and permanent marker
- Now you are ready to make your exploration tool!

Step 6

- Shovels and flashlights make great exploration tools!
- Make an outline as best as you can of your favorite by using the permanent marker
- Be sure to make the outline large enough to almost fill the entire page
- The end being inserted into the sandwich bag must be given enough white space

Step 7

- Use your colored markers to fill in your exploration tool
- Do not color in the area that is meant for the big reveal!
- That white space is very important for this craft to work

EDUCATIONAL CRAFT

Step 8

- Use your scissors to cut out your exploration tool
- Carefully cut along the edge

Under the Sea

Another idea!

Use the same guidelines from this booklet in a different way!

- Swap out black construction paper for blue
- Draw submarines
- Draw aquatic life (fish, octopuses, sharks)
- Draw underwater (or tidal) turbines

Outerspace

Another idea!

Use the same guidelines from this booklet in a different way!

- Draw stars and planets
- Draw the international space station
- Draw space ships and astronauts
