Aii is the Nation's Only Infrastructure Think Tank

The Alliance for Innovation and Infrastructure – or Aii – is the nation's only national, public policy think tank dedicated to infrastructure.

From thought leadership to serving as an independent, third-party validator of innovative solutions, Aii is actively engaged in research and education across the country to safely improve our nation's infrastructure, transportation systems, energy network, and supply chain framework, in order to improve mobility and support our quality of life.

Through its two nonprofits, Aii generates original and impactful research and provides educational resources for the general public, industry leaders, and public policymakers.

The Aii Mission

Our mission is to help foster innovative solutions to current and future infrastructure challenges.

Who We Are

The Alliance for Innovation and Infrastructure (Aii) is an independent, national research and educational organization dedicated to identifying our nation's infrastructure needs, creating awareness of those needs, and finding solutions to critical public policy challenges.

An innovative think tank, Aii explores the intersection of economics, law, and public policy in the areas of climate, damage prevention, eminent domain, energy, infrastructure, innovation, technology, and transportation.

What We Do

We find solutions to the many challenges our national infrastructure systems face by undertaking thorough research and analysis of complex problems and by producing educational materials from informational graphics to policy blogs, briefs, and white papers. We host and attend lectures, panels, and events to bring stakeholders and policymakers together and encourage robust conversation on policy issues. We want to be part of the solution and that means listening to, and asking, others about their views.

We make informed and unbiased policy recommendations. Sometimes we have great ideas, but we also listen to others. As a non-partisan, non-industry-specific third-party validator, Aii learns about the best ideas and credibly promotes smarter policies and regulations while highlighting safety initiatives and investments in innovative technologies across industries.

How to Cite Aii

Aii is an independent, nonpartisan think tank. Aii is **not** an industry group, trade organization, or special interest lobby.

When citing our work, refer to the first use as the “Alliance for Innovation and Infrastructure.” Subsequent mentions should be “Aii.” When using our abbreviated name (pronounced as three separate letters: A-i-i), the “A” is always capitalized, while both “i”s remain lowercased. There are no periods in the abbreviated name Aii.

How to Find Aii

Visit [Aii.org](https://aii.org) or search our handle on social media: @AiiNonProfit

Aii Logos

Trusted by over 100 outlets and counting

Invited onto podcasts, radio, and cable news | Quoted in both online and print journalism | Cited in both textbooks and journals

MEDIA MENTIONS

Aii experts are available for interviews upon request. For availability, comments on our research, or permission to reprint Aii material, please contact Benjamin Dierker at info@aii.org.

Aii Research

Aii regularly publishes research covering a range of topics relating to infrastructure, energy, technology, transportation, and more.

Our Audience

With a primary audience in Washington, D.C. and core readership and networks across major infrastructure and energy hubs around the nation, Aii is uniquely positioned to inform, educate, and influence decisionmakers and public policy professionals.

Aii in Action

Aii participates in conferences, panels, and events across the world, bringing experts together and engaging with the critical issues of the day.

Testimonials

“Working with Aii has been such a great experience. I’ve learned so much about infrastructure, innovation and the importance of sustainable growth in the industry. Getting to research and write about new topics has been the best part for me. My time with Aii has been incredibly valuable and I can’t wait to see how it impacts my career after graduation!” **Rachel Spencer, former intern**

“This internship was a very fulfilling experience. Having my own writing and now soon my own multimedia projects published online is a big accomplishment to me and something I hope to utilize in my future. I really felt like I was part of the team for my entire experience, everything was enriching.” **Jake Smith, former intern**

“Aii was a unique organization that provided very diverse experiences. It gave me a solid footing to build a career in public policy.” **Chanil N. De Silva, former Senior Policy Analyst**

“Aii has strong leadership and a fantastic policy team. The organization prioritizes doing the extra work to understand the nuance surrounding complex infrastructure policy issues to educate their audience regardless of the reader’s depth of knowledge or experience in the subject matter.” **Shane Skelton, former Executive Director, Policy Advisor**

“Aii is a leader in infrastructure policy and a respected voice in Washington DC.” **Kevin Gluba, Advisory Council**
